### Stories of Kindness

Stories of Kindness is an on-going story campaign shared on UNESCO MGIEP's web portal, wherein stories of kindness related to the SDGs can be submitted to UNESCO. The campaign hopes to mobilise the world's youth to achieve the 17 SDGs through transformative acts of Kindness. The overall goals of the campaign are to create a positive culture of kindness where a person's selfless acts matter while showing how they can make a difference to the SDGs. It also hopes to provide a comprehensive, independent and engaging pathway for youth to demonstrate how an act of kindness is a non-trivial task and that being kind is "cool".

Answering UNESCO's call for stories, students at KISS and KIIT University were sensitised about the story campaign and asked to submit their stories.
